## Coorara Primary School

# Attendance Improvement Plan 2025

We are Responsible, Respectful and Safe

*Created 17 March 2025*

Students must come to school every day the school is open. This is known as regular attendance.

Students are more likely to want to come to school and achieve if they feel:

- included
- valued
- respected
- supported.

### Students who miss school often

The attendance policy defines the following groups of students as at risk because of how often they miss school.

- Habitual non-attendance: a student misses 5 to 9 school days in a term. This is for any reason.
- Chronic non-attendance: a student misses 10 or more days in a term. This is for any reason.

For students in these groups, we assess the level of risk to their learning and wellbeing. When a student is at risk we will talk with the family about the issues.

### Our school's vision

All students have a right to an education. This gives them the best opportunity to reach their full potential. At Coorara Primary School, we create a safe, welcoming and inclusive environment where students can learn and grow. Each student is engaged in their learning. Parents and carers are important partners in this process. As part of our Attendance Procedure, we assess, engage, support monitor and evaluate attendance, working with parents, carers and students to create a Team around the Child. We work together to ensure that appropriate plans are developed to support consistent attendance improvement.

### How we follow up if a student misses school

Regular communication and follow up helps us to manage risks early and reduce absences. We all play a part in supporting our young people and teachers, leadership and parents all have roles and responsibilities. Having a consistent follow up procedure ensures that children stay as the core focus.

1. If a student misses school, we record their absence. We also record the reason given by the parent or carer.
  2. If we receive no reason, we follow up with the parent or carer. This is usually by phone or text (SMS).
  3. If the absences continue or there are concerns raised by the absence, we keep following up. This might be by phone, email, meeting or a letter.
- We support the family to look at any issues that stop the student from going to school.
  - If needed, we connect the family to other services. For example, student support services.

## **Our data**

At Coorara Primary School our student attendance records help us to plan how we improve school attendance.

We routinely analyse data. We look for patterns, for example, the attendance of different year levels. We also look at individual student attendance.

Our attendance rate has remained steady since 2022. We have been streamlining absence procedures with EMS will support further increase in attendance moving forward.

## **Our approach to improving attendance**

At Coorara Primary School our attendance strategies are guided by the South Australian Department for Education's attendance policy.

We will plan, implement and review the following attendance improvement actions. We will do this with our governing council, staff, students, families and local community.

### **Promote**

We will promote the importance of education from the earliest years of life and throughout the schooling years as a school community priority of the highest value.

### **Our actions**

- Communicate why going to school everyday matters. Explain how absences affect learning, wellbeing and future success.
- Share how education helps students to build routines and habits.
- Promote ways parents and carers can use routines in the early years to create good habits later.
- Recognise good or improved attendance. This might be for students, classes or the whole school.
- Set up attendance expectations. Share this with families. Lead by example.
- Include information about student attendance in school reports.
- Share why going to school every day matters when there is a big change in a student's life.
- Help students develop career goals. Work with higher education and local groups.
- Use attendance messages and data in classroom activities.
- Peer support programmes for kids
- Discuss attendance in staff meetings.

### **Assess**

We will assess patterns of non-attendance and circumstances. We will use this to inform the development of appropriate targeted, intensive and coordinated interventions.

## Our actions

- Record daily absence. Make sure it is recorded correctly. Import the data into the department's reporting system (EMS).
- Set up a process for quick and consistent recording and follow up of all absences.
- Analyse attendance data for trends and patterns of absence.
- Review attendance data with staff. Discuss students at risk.
- Check on all students with individual learning plans. This includes students who have agreed changes to their attendance. For example, an exemption.
- Display attendance data in the school.
- Create ways to let staff know about any worrying student absences.
- Check on all students who have habitual and chronic non-attendance. Find out what support they might need.

## Engage

We will actively engage and include all children, young people and their families in education and interventions which support attendance.

### Our actions

- Create a welcoming and inclusive school.
- Engage and challenge students. Allow for different student abilities and needs. Modify the curriculum and teaching practices if needed.
- Build relationships with parents and carers. Offer different activities over the year.
- Set up programs that support student wellbeing and school connections.
- Support students to build resilience.
- Support students to develop relationships.
- Build staff skills to talk with students and families about attendance issues.
- Build staff skills to provide an inclusive, relevant and engaging curriculum.
- Support students identified as habitual and chronic non-attenders as early as possible. This might include home visits.
- Encourage staff to talk with families and students about attendance.
- Create safe and supportive learning spaces. This is so all students can learn and engage.
- Involve students in the design and delivery of their learning.
- Build student voice into school decision-making.
- Ask students and staff for feedback about the learning environment.

## Support

We will provide support to address the barriers to attendance, learning and wellbeing. We will make sure there is inclusive support for children and young people so they can be physically present and engaged in education.

Our actions

- As early as possible, support students who have attendance and wellbeing issues.
- Work with Student Support Services on student attendance issues.
- Set up attendance improvement or learning plans for students with attendance issues.
- Work with families to find out why students are away from school. Make sure the support fits their individual needs.
- Support all students, including those from culturally diverse backgrounds (including First Nations) and/or complex needs (Children in Care and or with a disability) who have attendance concerns.
- Set up a process to follow-up attendance issues that students and families tell us about.
- Set up supports when there are big changes in a student's life. Support students to plan for their education needs now and in the future.

## Monitor

We will monitor attendance to make sure that risks are identified, supports are in place, and progress is monitored.

### Our actions

- Set up an attendance team. This team can identify, check on and lead support for students with attendance issues.
- Check on students we are supporting. Share how the student is going with their family.
- Make sure staff understand their duty of care to check on and follow up attendance issues.
- Set up ways for staff to escalate attendance issues.

## Evaluate

We will evaluate the need for further or ongoing interventions, referrals for external support and mandatory notifications.

### Our actions

- Set up an attendance team. This team can identify, check on and lead support for students with attendance issues.
- Check on students we are supporting. Share how the student is going with their family.
- Make sure staff understand their duty of care to check on and follow up attendance issues.
- Set up ways for staff to escalate attendance issues
